

Staplegrove Church School

Welcome to Forest School!

Information Booklet

Welcome to Staplegrove Church School Forest school!

Our journey begins by knocking on the Forest School gate and we listen quietly...for a bird, a tree rustle or even Brock the Badger to let us in! Then the adventure in the Forest begins. Forest School is the place where magic can start to happen as imaginations, self-confidence and vocabulary start to grow. Every visit to the Forest will be to the same place, yet the story will always change and be different. The amazing memories and adventures that take place in Forest School will always be enjoyed.

In Forest school all children are given the opportunity to access, experience and enjoy learning while working in the outside environment. We take the "classroom" outside and use the beautiful surroundings, weather and sounds to enhance their learning visually, orally and sensually. This holistic approach encourages children's imaginations, build's self-esteem and creates the desire to understand, learn and respect the natural world around them. The children are in a safe environment where they can succeed, create and use Maths and Literacy skills without them even realising it! Through exploration and discovery the children are able to enjoy and self-initiate their own learning. In Forest School children are able to take calculated risks in a controlled environment. They learn cause and effect and what may or could happen. They are given the opportunity and responsibility under supervision, to use tools and help be part of a team, creating a fire to keep them warm and cook food. Equality, achievement and self-belief help children to return to the classroom feeling that they can accomplish and succeed in what they do. Every child is valued and their input is vital; we work as a team and they are able to respect and treat each other fairly and as equals.

What is Forest School?

Forest School is a method of working outdoors with children, young people and adults, using the natural environment to promote social and emotional development. It is an inspirational process that offers all learners regular opportunities to develop confidence and self-esteem through hands-on learning experiences in a woodland or natural environment with trees. These learning experiences also help to develop communication and practical skills, as well as a greater understanding of the environment. For more information see the Forest School Association website at www.forestschoollassociation.co.uk

How can Forest School help my child's learning and development?

It is proven from research that learning that takes place in the outdoors is powerful and memorable as all the senses are involved. Forest Schools helps children develop through a child-led approach and teaches them how to assess risks for themselves.

What happens during the Forest school day?

The children arrive at school in their Forest School clothing and once the Forest School leader has checked that all the children are wearing the correct attire the group walks to the Forest School area. Each session begins around the Fire Circle, where we talk through the safety rules for working outdoors and about respecting each other. For every session we have a lesson plan which includes a variety of small group activities linked to the terms topic or the children's interests.

What sort of activities do the children do?

Activities are linked to the topic that the children are covering that term. Typically these may include: Music - keeping a pulse or copying a rhythm pattern by beating sticks together, learning

songs and singing as a group. Design Technology and Science - Building dens and bridges that are suitable for them to sit in and walk on, whittling wood, making wooden disks, exploring the natural world of plants and animals. Literacy - Story telling around the fire, Writing, following instructions and creating story maps with natural objects. Maths - Counting, Measuring, Shapes and Problem Solving. Art - creating 3D pictures or sculptures out of clay or mud and other natural materials.

What tools will be used in Forest School?

In Forest School the children will be introduced to tool use in a safe and age or stage appropriate way. Simple tools include potato peelers for whittling and hand drills. When they are competent and the leader feels it is appropriate we will start to introduce small knives and bow saws. The Forest School leader will be the supervising adult when tools are being used and the ratio will be no more than 1:4. The Forest School leader will give the children a safety talk each session and when appropriate will explain how a tool should be used and when it can be used safely. If a child is not using a tool in a safe manner the activity is stopped and safety instructions will again be given. The Peeler (Potato) is used as a 'Whittling' tool. We only use soft green wood such as Willow and this can then be used to make charcoal. Hand Drills allow children to drill through a thin disc of wood and create a hole to thread string or a piece of dowel through. Gloves are kept on site and can be worn if the child wants to or if the Forest School leader feels that the child needs to. Gloves can protect the hand if worn on the bracing (supporting) hand but when working the child needs to feel the object and have a good grip at all times. All activities using tools are fully risk assessed.

Are there First Aiders on the site?

The Forest School leader holds a current Outdoor Paediatric First Aid certificate. A First Aid kit is kept on the site as well as a First Aid Burns kit, Fire Blanket and Water to extinguish fire. If there is an accident the child will be taken into the First Aid area inside the school and parents notified. Asthma pumps and other medications are taken down to the forest area for the duration of the session and are supervised by the Forest School leader.

What about toileting and snack?

The children are given a break mid-session when they are able to visit the toilets and have their snack and a drink. The children may also visit the toilet at any point during the session after seeking permission from their supervising adult. All water bottles are taken to the Forest School area and the children are encouraged to drink water throughout the session. During the colder weather the children may be given a cup of warm chocolate and an additional snack.

If it's cold or raining will Forest School still take place?

Forest School takes part in all seasons and all bar very extreme weather conditions. We are very fortunate in having our wonderful new Forest School shelter which has now become our Forest School classroom. Forest School sessions may be cancelled in extreme weather conditions.

What if the children are cold or wet?

Before the Forest School session starts the children are reminded of the importance of telling an adult if they are cold or wet. During the session the children are carefully monitored by the supervising adults who are aware that some children will not speak out, and so are vigilant as a team to look out for signs of a child being cold or unhappy. If a child has managed to get wet, then the

Teaching Assistant will take them back into school to change into their spare clothes or to borrow clothes from school if necessary.

What about during hot weather?

During the summer months the children will need to be wearing hats and bring in sunscreen that they can reapply during the day. We will encourage them to drink plenty of fluids and there will be frequent drinks stops throughout the session. In addition the children may be given an ice lolly during the session to help keep them cool!

I have no waterproof clothing or wellies for my child!

If you do not have all the correct clothing for outdoors then we do have some spare items in Forest School including wellington boots and waterproof trousers and jackets so please speak to the class teacher. We make sure all children are wearing the correct clothing before we go outside. No child will be permitted to go outside if their clothes are not suitable for the conditions.

Suitable Clothing

The children will be outside in varying weather and will need the appropriate clothing for the conditions and also possible changes of clothes. The children will need to come to school dressed in their Forest School clothes, remembering to bring their indoor shoes for the classroom.

For the cold weather

- Hats and gloves
- Jumper/fleeces (with warm under garments)
- Warm socks (and some spare socks)
- Wellington boots
- Waterproof clothing
- Coat

For the hot weather

- Sun cream protection
- Sun hat (preferably one that offers protection to the back of their neck)
- Sensible sturdy close toed shoes.
- Preferably covered legs (no shorts)
- Spare socks
- Wellington boots
- Waterproof clothing
- Jacket

More questions? If you have any further questions or concerns, however small, please speak with the class teacher who will be happy to discuss these with you. You can find a copy of our Forest School Handbook on the school website.
